**ANSWERS TO QUESTIONS for VEHICLE RENTAL SERVICE SOLICITATION  
(19TU15-22-Q-3002)**

Replies to the questions posed by the potential offerors are as follows:

1. Is there a possibility to provide an estimate for how many kilometers for each trip for this contract daily in order to calculate the fuel expenses?

**Answer:** We cannot make an estimate based on the kilometers on a daily basis, as this data varies with every rental request. Please review the RFQ for the scope of our rental requirement.

2. Do you need all these vehicles in the parking lot of the U.S. Embassy in Ankara from 8:00 am to 16:00 on daily basis?

**Answer:** The quantity of the rental vehicles are provided only as an estimate in the pricing chart and the pickup points will differ for each trip, i.e. these rental vehicles will not be parking in the U.S. Embassy parking lot. Please refer to the pricing section in the RFQ.
